The customer must,

The objectives of the credit control section are to -

- Implement procedures that will ensure the prevention of escalation in arrear debt;
- Limit risk by employing effective management tools.

7.2 APPLICATION FOR SERVICES AND SERVICE AGREEMENTS

7.2.1 All consumers wishing to utilise municipal services must apply to enter into a service agreement.

7.2.2 The service agreement, on the prescribed form, will be entered into prior to the provision of services and prior to the consumer taking occupation of the premises.

7.2.3 Before being provided with electricity, water and/or other customer services, and prior to taking occupation of premises, every customer shall enter into a service agreement with the Council in which, inter alia, the Council may require the customer to agree that the electricity, water and/or other services, supplied by either Prepaid or Credit meter systems, may be used for credit control purposes to collect arrears in respect of all outstanding debt.

7.2.4 Owners may allow tenants to sign separate agreements with the municipality, which the municipality may at its own discretion accept or reject;

7.2.5 On default by a tenant, the owner will be the debtor of last resort;

7.2.6 A new service agreement will only be entered into once all amounts owed by a consumer on other debtor accounts are settled in full.

7.2.7 Where municipal services are used/consumed or made use of, and the owner, tenant, or occupants of a property, have not entered into nor completed an agreement for such services, the owner responsible for the payment of rates on the property will be billed for the metered consumption and all municipal service charges applicable to the property.

- 7.2.8 The service agreement shall indicate that transfer of a property may not be registered until the municipality issues a clearance certificate which reflects that all amounts due in connection with that property for municipal service fees, property rates and other municipal taxes, levies and duties during the two years preceding the date of application for the certificate, have been fully paid.
- 7.2.9 Application forms are available at the municipal offices and the application process must occur at least ten (10) working days prior to taking occupation of the premises. This will ensure that services are available when occupation is taken. Failure to adhere to the timeframe may result in customers not having the services available when occupation is taken. Once the application has been approved, a service agreement will be entered into and services will commence.
- 7.2.10 The Municipality will render the first account after the first meter reading cycle following the date of signing the service agreement or as soon as is administratively possible.
- 7.2.11 Consumers who illegally consume services without a valid service agreement will be subject to disconnection and/or removal of the service and may have charges laid against them for theft and fraud.
- 7.2.12 The service agreement shall set out the conditions under which the services are provided and shall require the signatories thereto to accept the contents of the municipality's credit control and debt collection policy, as well as the provisions of the Municipal Systems Act, 2000 (Act No. 32 of 2000).
- 7.2.13 Where a signatory is not the owner of the property to which the services are to be provided, a letter from the owner indicating that the signatory is the lawful occupant of the property and where a lessor/lessee arrangement exists between the parties, a copy of such agreement shall be attached to the service agreement.
- 7.2.12 Where a consumer has failed to enter into a service agreement with the Council, water and/or electricity shall be restricted or disconnected, as the circumstances may require, until such time as a service agreement has been entered into and the applicable deposits have been paid. In such circumstances, the consumer will be held liable for any calculated amounts.
- 7.2.13 Prior to signing these agreements, customers will be entitled to receive the policy document of the municipality on request at a cost determined by Council.
- 7.2.14 On the signing of the agreement, customers will receive a copy of the agreement for their records.

7.2.15 Existing customers of services will be required to sign new agreements as determined by the Municipal Manager from time to time.

7.3 CUSTOMER SCREENING AND SECURITIES

7.3.1 Every customer, other than those who are the registered owners of the property, is to pay a deposit on application for the provision of municipal services before the municipality renders any service to the property. Deposits are payable when new customers sign service agreements and when existing customers move to a new supply address. All deposits shall be paid at least 10 (ten) days prior to occupation of the property or prior to the date on which the services are required, if not required on date of occupation. Failure to comply with this clause may result in a delay in the connection of services and the Council shall not be liable for any loss or prejudice suffered by a customer as a result thereof.

7.3.2 All applicants for municipal services may be checked for credit-worthiness including checking information from banks, credit bureaux, other local authorities, trade creditors and employers.

(a) Consumers may be grouped into high, medium or low risk consumers.

(b) A consumer could then be granted a low risk status if he/she/it has not defaulted on any payment to the municipality, medium risk for defaults on payments and high risk if any legal action and judgements were taken.

7.3.3 Based on any risks assessment, non-payment of services, default on existing payment arrangement, tampering with the service or theft of water/electricity, the level of deposits may be set or increased.

7.3.4 Deposits can be increased at the discretion of the municipality to a maximum of three months average consumption.

7.3.5 The outcome of any review contemplated shall be communicated to the customer in the event of any variation in the deposit arrangements being required.

7.3.6 The municipality will not pay any interest on deposits.

7.3.7 On the termination of the agreement the amount of the deposit, less any outstanding amount due to the municipality, will be refunded to the consumer.

7.3.8 Bank guarantees are only permitted for businesses and only under circumstances as determined by Council from time to time.

7.3.9 Deposits are not transferable when existing customers move to a new address.

7.4 RIGHT OF ACCESS TO PREMISES

7.4.1 The owner and or occupier of property must allow an authorised representative of the municipality access at reasonable hours to the property in order to read, inspect, install or repair any meter or service connection for reticulation, or to disconnect, stop or restrict, or reconnect, the provision of any service. The representative is to have the proper authorisation and can only request access during reasonable hours.

7.4.2 The owner is responsible for the cost of relocating a meter if satisfactory access is not possible.

7.4.3 If a person fails to comply with 7.4.1 the municipality or its authorised representative may:-

(a) by written notice require such person to restore access at his/her own expense within a specified period; and

(b) as a matter of urgency, without prior notice restore access and recover the cost from such person.

7.4.4 If the municipality is unable to read any meter on any property because the meter has been rendered inaccessible, the municipality shall estimate the consumption of the service concerned and thereafter bill the accountholder for the monetary value of such estimated consumption.

7.4.5 In the event that the Council continues to be unsuccessful in obtaining access to the property and, therefore, is unable to obtain an accurate meter reading, the Chief Financial Officer or his authorised representative may disconnect the supply via the Consumer Distribution Unit.

7.4.6 Voluntary readings:

- These will be permitted provided the municipality obtains any final reading should the consumer move to another supply address.
- Consumers may be liable for a fee to cover the costs of obtaining a reading if no advance warning is given and special arrangements are required to obtain a reading.
- The Municipality is entitled to make suitable adjustments to the readings should a consumer fail to ensure that a final reading is obtained.
- An audit reading during the normal reading cycles must be obtained at least once every 12 months. If a special audit reading becomes necessary this will be done at the cost of the consumer.
- The consumer may elect to supply voluntary readings subject to compliance with these rules. The Chief Financial Officer may, however, cancel the voluntary reading convenience if the consumer fails to render readings on two or more consecutive occasions.

- 7.5.1 The Council shall disconnect/restrict services to consumers whose consolidated accounts remain unpaid after due date.

- 7.5.4 In the event that full payment of the consolidated account, including any accumulated arrears, is not received by close of business on due date, the electricity supply and thereafter the water supply may be disconnected/restricted, unless a formal arrangement for an extension of payment, in terms of section 6.7.3, has been approved by the Chief Financial Officer or his authorised representative.
- 7.5.5 Council reserves the right to deny or restrict the sale of electricity or water to customers who are in arrears with their rates or other municipal charges.
- 7.5.6 Even though a customer may have concluded satisfactory credit arrangements in terms of section 6.7.3, the Council is not obliged to effect a reconnection of services on the day that payment is received or the agreement has been signed, but will, unless unable to do so because of circumstances beyond the

control of the municipality, endeavour to do so within three (3) working days in terms of section 7.7 read in conjunction with section 7.6.

- 7.5.7 Where a customer's services are disconnected, or where access to a disconnected services has not been obtained, the customer shall be charged a visitation fee, as determined by the Council, which shall be paid prior to the services being reconnected.

- 7.5.9 Where a customer or owner's account is in arrears and no credit arrangement for the settlement of any outstanding debt has been entered into, and, whether the services to the property have been disconnected / restricted or not, the Council may, regardless of whether the service agreement is terminated or not, implement the procedures for debt collection as set out in Section 8 of this policy, if such action is deemed by the Chief Financial Officer to be in the best interests of the Council.
- 7.5.10 Should the Chief Financial Officer be of the opinion that the termination of services, in respect of which the account is in arrear, could result in the endangerment of the life of any person, the Chief Financial Officer may appropriately restrict rather than terminate the services in question.
- 7.5.11 All costs related to notices, the restrictions or dis- and reconnections, will be determined by tariffs approved by the municipal Council, and will be payable by the customer.

7.7.1 The municipality shall endeavour to reconnect or reinstate terminated or restricted services as soon as conveniently possible but not later than within 3 (three) working days after the date on which the conditions set out in section 7.6 of this policy have been met, unless unable to do so because of circumstances beyond the control of the municipality.

7.8 CLEARANCE CERTIFICATES

7.8.1 On the sale of any property in the municipal jurisdiction, the municipality will withhold the transfer until all rates, services and consumption charges are paid by withholding a rates clearance certificate as contemplated in section 118 of the Systems Act.

7.8.2 The Municipality shall, wherever possible, issue a clearance certificate within ten working days of such request once all outstanding debts and administration fees have been paid in full.

7.8.3 The above provisions do not apply in the case of transfers from National Government, Provincial Government or another municipality of residential property where the provisions of Section 118 of the Municipal Systems Act are applicable.

7.9 THE PRE-PAYMENT SYSTEM

The municipality may use its pre-payment system to recover arrears in respect of accrued municipal taxes and other municipal levies, tariffs and duties in respect of services such as water, refuse removal, sanitation and sewerage.

7.10 INCENTIVES FOR PROMPT PAYMENT

- 7.10.1 To encourage prompt payment and/or to reward regular payers the municipality may consider incentives for the prompt payment of accounts or payment by debit or stop orders.

8 DEBT COLLECTION

8.1 OBJECTIVE

The objectives of the debt collection section are -

- to provide procedures and mechanisms to collect all the monies due and payable to the municipality arising out of the supply of services and annual levies, in order to ensure financial sustainability and delivery of municipal services in the interest of the community;
- to institute procedures to address arrear debtor accounts with the intention of proceeding until the debt is collected or written off by applying the following two phases:
 - Initial collection phase
 - Final collection phase

8.2 INITIAL COLLECTION PHASE

Where debtors' accounts are in arrears –

8.2.1 Immediately after due date, disconnect and/or restrict all water and/or electricity services for all overdue amounts relating to rates, service charges or any charges for services rendered by the municipality in terms of the procedures laid down in Section 7.5 of this policy;

- 8.2.9 The Chief Financial Officer may arrange to withhold/reject the approval of building plans relating to improvements on properties if there are arrears on that property;

8.3 FINAL COLLECTION PHASE

Where debtors' accounts are in arrears sixty days (or any earlier period if the Chief Financial officer deems that it is in the best interest of the Council) after due date and where an account rendered to a customer remains outstanding one of the following options may be taken –

- where an internal municipal debt collection unit is in operation;
- where external collection agents are involved.

8.3.1 Where an internal municipal debt collection unit is in operation –

The following listed steps be instituted for recovery of arrear debt up to the point where the debt is collected:

- 8.3.1.2 Summons to be served;
- 8.3.1.3 Default Judgement to be served;
- 8.3.1.4 Warrant of Execution to be served;
- 8.3.1.5 Garnishee Order to be served;
- 8.3.1.6 Sale in Execution by Sheriff – moveable assets;
- 8.3.1.7 If no success, hand over to Attorney for action in court and/or Sale in Execution of fixed assets.

8.3.2 Where external collection agents are involved –

- 8.3.2.1 All arrear amounts shall be handed over to the Council's debt collection agents;
- 8.3.2.2 The collection agents will then make use of normal debt collection procedures including a call centre approach and legal processes to collect the amounts owed to Council;
- 8.3.2.3 Garnishee orders, in the case of employed debtors, are preferred to sales in execution, but both are part of the municipality's system of debt collection;
- 8.3.2.4 The Municipality may be requested to disconnect and/or restrict the electricity/water supply of any debtor before proceeding with the sales in execution process, as a last resort to get the defaulter to settle the outstanding debt or to enter into agreement for the settlement thereof;
- 8.3.2.5 If necessary, the sale in execution of a property to recover arrear property rates and service charges will be instituted (if the accountholder is also the owner of the property);

- 8.3.2.6 The municipality will exercise strict control over this process, and will require regular reports on progress from service providers;
- 8.3.2.7 The municipality will establish procedures and codes of conduct with these outside parties.

8.4 COLLECTION CONTROLS AND GENERAL MATTERS

- 8.4.1 All steps in credit control and debt collection procedures will be recorded for the municipality's records and for the information of the debtor.

- 8.4.6 Any agreement concluded with an agent, service provider or product vendor shall include a clause whereby breaches of the code of conduct by the agent or vendor will constitute a breach of the contract.

8.5 COST OF COLLECTION

All costs associated with credit control and debt collection including interest, penalties, service discontinuation costs and legal costs are for the account of the debtor and should reflect at least the cost of the particular action.

8.6 ABANDONMENT OF CLAIMS

- 8.6.1 The Municipal Manager must ensure that all avenues are utilised to collect the municipality's debt.
- 8.6.2 Whenever all the legal avenues and procedures listed above have been exhausted, or it becomes uneconomical to proceed further, the arrear amounts should, in terms of the Council's Bad Debt Policy, be classified as irrecoverable and should be written off.
- 8.6.3 The valid termination of debt collection procedures may be considered under the following circumstances:-
- (a) the insolvency of the debtor, whose estate has insufficient funds;
 - (b) a balance being too small to recover, for economic reasons, considering the cost of recovery; and
 - (c) where the municipality deems that a customer or group of customers are unable to pay for services rendered.
- 8.6.4 The municipality must maintain audit trails in such instances, and document the reasons for the abandonment of the actions or claims in respect of the debt.

8.7 CREDIT BUREAUS
